

## RES2 PROJECT

- **Funded** by the EU Programme: LIFE
- **T:** Sep 2023 - Feb 2025
- **Partners:** IBIMI, Fondazione Lombardia per l'Ambiente, Ecipa Scari, Scuola Edile Artigiana, Formedil, CNCE

## MISSION

To reach the 2030 objectives for energy efficiency in buildings, we need a workforce equipped with the necessary digital and green skills.

In Italy today many of these competences are still lacking.

RES2 project will support Decision Makers, companies and professionals in the industry as well as VET providers in taking the necessary steps to develop and formally recognize the digital and green skills more required by the market.

## ACTIVITIES

**STATUS QUO REPORT** on the educational and training system in the building sector, with a focus on digital and energy efficiency skills

**INITIATIVES** to boost the participation of women in the building sector

**WORKSHOPS, LIVING LABS AND STAKEHOLDER INTERVIEWS** in order to discuss about obstacles and possible solutions

Development and certification of micro-competences, also in order to build and formally recognize new professional profiles

## ROADMAP 2030:

the steps to take towards the 2030 Agenda
